Education

Cavite State University Silang Campus

Bachelor Of Science in Information Technology

Silang, Cavite
September, 2026

Relevant Coursework: Data Structures & Algorithms, Mobile Application Development, Database Management Systems, Web Systems.

Technical Skills

Languages & Frameworks: JavaScript (ES6+), React Native, HTML5/CSS3, Python, SQL.

Developer Tools: Git/GitHub, Expo, Supabase, VS Code.

Hardware: PC Assembly & Troubleshooting, Live Streaming Audio/Video Routing.

Technical Projects

SilangEmergency (Capstone Project) | *Lead Developer*

- **Tech Stack:** React Native, Expo, Supabase
- Engineered a geolocation-based emergency response application allowing users to submit incident reports with real-time tracking.
- Implemented Supabase for secure user authentication and database management, ensuring data privacy for sensitive user reports.
- Optimized image upload workflows for low-bandwidth (Data/LTE) environments to prevent app crashes during critical reporting.

Employee Management & Payroll System | *Individual Project*

- **Tech Stack:** C#, .NET Framework, MS SQL Server
- Developed a comprehensive desktop application combining employee record management with automated salary processing.
- Implemented **CRUD** (Create, Read, Update, Delete) functionalities to dynamically update employee profiles, tax status, and attendance logs.
- Engineered a **Pay slip Generator** module that calculates net pay based on deductions and exports printable salary slips for distribution.

One Piece Fandom Web Portal | *Frontend Developer*

- **Tech Stack:** HTML5, SCSS, JavaScript, jQuery
- Developed a fully responsive fan website featuring a custom animated splash screen and dynamic navigation menus.
- Integrated **Swiper.js** and **OwlCarousel** libraries to build interactive touch-responsive sliders for character biographies.
- Engineered a custom DOM-manipulation script for the video gallery, enabling seamless media source switching without page reloads.

Experience

BND Pro League Productions | *Founder & Technical Director*

- **Location:** Dasmariñas City, Cavite
- Direct live broadcast operations for Mobile Legends: Bang Bang tournaments, managing complex audio/video signal flows and OBS scene switching.
- Troubleshoot real-time hardware and network latency issues during live events, maintaining 99% stream uptime under high-pressure conditions.
- Coordinate production schedules and client requirements.
